THURSDAY TOUR OPTIONS

Deep Soil Ecotron

Tour 10-foot-deep soil columns used to study soil processes at previously unexplored depths.

University of Idaho Meats Lab

See the latest in meat processing and tour the new facility with Phil Bass, University of Idaho.

Potato Germplasm Lab

Explore potato germplasm research and tour the facility.

WHY ATTEND?

Practical Ideas

Timely information on soil health, grazing technology, remote sensing, drones, regenerative farming, and district operations.

Statewide Connections

Meet supervisors, employees, agencies, partners, exhibitors, and conservation professionals from across Idaho.

Recognize Excellence

Celebrate conservation education Tuesday and Idaho's conservation leaders at Wednesday's awards banquet.

Shape the Association

Participate in the listening session, budget and resolutions preview, and IASCD business meeting.

ONLINE REGISTRATION
